Summary

Senior Product Designer, 5+ years in complex B2B (fintech, SaaS). Turns dense expert workflows into usable interfaces and scalable design systems. Recently focused on AI-native, agentic UX, including shipped work that cut manual inbox handling by 61%.

Experience

Senior Product Designer, Glow Design Agency

Mar 2023 – Present

Lendflow, August 2024 - Present

- Own end-to-end design of the core interfaces funding advisors and underwriters work in on a B2B embedded-lending platform, from independent research and prototyping through UI. Most of the job is making dense underwriting workflows usable.
- Designed a command interface for invoking AI agents, including one specifically for email, cutting manual inbox handling by **61%** and first-response time by **67%**.
- Built interactive, AI-assisted prototypes in Claude and Cursor to walk stakeholders through complex flows, which got alignment and sign-off faster.
- Modernized a legacy design system with developers by adding reusable components and tokens, which removed inconsistencies and speed up UI delivery.
- Redesigned the lender offer review flow, cutting review time for funding advisors.
- Work daily with CEO, PMs and engineers to align on strategy and settle technical trade-offs early.

Other Projects

- Redesigned booking and onboarding flows, which improved usability and lifted conversion at the main drop-off points.
- Combined user research (interviews, usability tests, card sorting) with behavioral analytics from FullStory and PostHog to surface pain points and validate design decisions.

UX/UI Designer, AppCake

Jun 2022 – Feb 2023

- Designed cross-platform mobile apps (iOS, Android, Unity) across utilities, game-guide, and health categories.
- Redesigned subscription-onboarding screens and store assets that contributed to a **7.5%** increase in user engagement.

UX/UI Designer, Adept

Oct 2021 – June 2022

- Shipped B2B and B2C foodtech products, managing end-to-end UX from discovery to launch
- Redesigned a web-based coffee ordering app and developed internal admin tools, reducing order handling time by **12%** and increasing operational visibility
- Built inventory-aware ordering and marketplace integrations that reduced product waste by **8%**
- Contributed to the creation and scaling of a shared design system, improving cross-product consistency

UX/UI Designer, ULTIMA

Mar 2021 – Oct 2021

- Designed social-media marketing creatives that increased sales conversions

Skills

- Product Strategy & business impact
- Design Systems
- Complex & data-dense workflow design
- User Research (B2B / expert users)
- Usability Testing
- Interactive prototyping (incl. AI-assisted)
- Data-driven design & impact measurement (A/B testing, product metrics)
- Information Architecture
- Systems Thinking
- Visual & interaction design
- Cross-functional collaboration & stakeholder management
- AI-assisted design workflows

Tools

- Design: Figma, FigJam, Miro
- AI: Claude, Claude Code, Cursor
- Analytics: FullStory, PostHog
- Collaboration & dev: GitHub, Notion
